Subject: Highlights of 2024 Budget Request

Good day Mayor Dionne and Council members.

Over the past five years, we have averaged an increase of 2.5% annually in city grants for the delivery of Paratransit services. This is despite increased wage and benefits costs and extra ordinary increases such as fuel prices. These are our high-ticket items in our annual budgets.

We are at a crossroads. For 2024, costs have caught up to us, even though we have reduced costs compared to 2023. Without a substantial increase in funding, we will have to consider reducing service levels.

Compared to 2023, we have reduced wage and benefit costs by \$21,575. We have reduced operating expenses by \$13,888. The total reduction is \$35,463. We have achieved this by eliminating a team leader position, deleting a planned split-shift, and going with a conservative estimate for fuel costs.

We have optimistically increased our 2024 revenue from operations. Our 2023 sources of revenue, however, included \$152,918 from reserves. These had been earmarked for system improvements to our dispatch system. In 2024, without the ability to transfer funds from reserves, as they are depleted, our funding request is \$675,285 from the City.

It is our hope that you will look favorably on this request and find the means to provide the funds necessary to keep our service levels status quo.

Sincerely

Wm. (Bill) Powalinsky

3. Thank you

Thank you for your continued funding support over the years, and for considering our application this year, which is for the same amount as we have received over the past 7 years.
